BIENNALE OF CHIANCIANO

160 Artists from all over the world in Chianciano

The Exhibition is located over four floors of the museum, occupying 2000 square metres and gathers together the most important new talent and emerging artists from all over the world. Many artists will attend this event in person. Chianciano will become a centre of art during the Biennale, and a hub of cultural diversity, where artists, art experts, curators and art lovers will be able to meet each other and exchange ideas and opinions.

Not only works of modern art, but also a series of cultural events, will continue until the 27th September, the date of the prize-giving ceremony.

Important events celebrating the culture of the Val di Chiana with its local Etruscan remains are to be found at Chianciano, alongside a complementary exhibition of important Egyptian finds at the local Etruscan museum.
